IMPORTANT NOTES

If for one subject you can find several different types (lecture, practice, laboratory) of courses then please choose one and only one course from each type in order to be able to perform the subject's requirements successfully. Civil Engineering courses are on the website separately. Courses chosen from the offer of Faculty of Civil Engineering will be checked and arranged individually by the departmental coordinator.

There is an equal emphasis on both written and spoken English. In the course students are introduced to distinctive uses of technical texts, with particular emphasis on their lexical and syntactic characteristics. Students acquire the basic technical terminology in all fields of engineering.- By the end of the course students are able to understand more complex technical texts. Moreover, they are able to create simple technical scripts bearing the basics of the technical register in mind. They are able to formulate their opinions concerning specialist topics. They recognise and use terminology related to their own fields of interest and outside their profession's scope. They are able to elaborate on: technical inventions, innovations, appliances, devices, mechanisms, materials technology, properties of materials, basic geometrical shapes, primary mathematical concepts, proper names of tools, the principles of energy technology and the basic questions of sustainability.- Completion requirement: active participation in classes (maximum 30% absence allowed) and completion of assignments and / or progress tests issued during the semester.#160;#160;</p>
